Champ Clark Service Coordination embraces Technology

Missouri is now a Technology First State for Assistive Living.

Missouri Assistive Technology offers Kids Assistive Technology (KAT). When all other funding options have been exhausted, KAT can provide limited funding for assistive technology, vehicle access modifications, as well as some home modifications for children under the age of 21. Examples include wheelchair lifts, adapted computer equipment, stairway lifts, augmentative communication devices, mobility aids, hearing aids, and vision and Braille devices. Home modifications may include wheelchair ramp, widening doorways, bathroom/shower bars, elevated toilet seat, and hand held shower equipment. Meeting special health care needs and financial eligibility guidelines is required to obtain this funding.
